

The Anglers Hotel, situated on the shores of Ennerdale Lake, proudly boasts of one of the finest views of lake and mountain scenery to be found anywhere in the district.

Doctor Johnson said on one occasion that no matter how pleasant a landscape might be, its appearance could be improved by the addition of a comfortable hotel. Such an establishment is the Anglers Inn. Whilst retaining its old world charm the hotel is fitted with every modern convenience.

The bedrooms are equipped with hot and cold running water, electric lighting and spring interior mattresses.

The cuisine is an outstanding feature being under the direction of the resident proprietors who have a wide experience of the catering trade.

Excellent Trout Fishing and Climbing are close at hand, while the extreme beauty of the lakeland scenery hereabout is without parallel.

It is often said "make your reservation early", but the popularity of the Anglers Inn gives some urgency to this advice, we do not want one single would be guest to be disappointed, so please let us know your wishes in good time.
