Bleach Green is ideal for people who haven't done much orienteering before

There are two courses.

The Easy Course is all on smooth, level paths. The navigation is mostly easy, but you do have to find your way through some path junctions, especially between number 1 and number 2.

The Harder course goes into some rough, boggy ground, and some of the checkpoints are harder to find.

There are more Orienteering courses at Bowness Knott. See www.wildennerdale.co.uk/activities
